## NO GENERAL EXEMPTION OF MARRIED MEN

Senate Will Push Bill Extending Ages to  
Early Passage

(By Associated Press)  
Washington, Aug. 19.—No general exemption of married men, simply because of their married status is contemplated by the War Department in preparing for the proposed extension of draft ages, Sec. Baker declared today in a statement before the House Military Committee on the new administration of the man power bill. Mr. Baker said his previous remark on this subject had been misconstrued and that married men who did not support their families and who were not engaged in useful occupations would continue to be called. "There are many married men in the country who ought

to go and fight as freely as single men," he added. Leaving an explanation of the man power situation to General Crowder, the Secretary announced that because of objection to calling boys of eighteen he had planned to defer their call as long as possible, and would not object to placing a provision in the bill making a separate class of men between eighteen and nineteen years and for deferring calling those "as far as practicable" until after others in class one had been exhausted.

The time to boost Portsmouth is all the time.

## The French Continue Their Advance Along Oise and Aisne—British Deliver Smash Near Mirville and Take Prisoners and Guns

### M'ADOO ORDERS COURTESY FOR THE PUBLIC

(By Associated Press)  
Washington, Aug. 19.—The railroad employees were specifically ordered by Director-General McAdoo to show courtesy in dealing with the public, and to excuse train delays and other errors with the plea that "Uncle Sam is running the railroad now." "The Public-be-damned" policy will in no circumstances be tolerated on the railroad under government control, says the order addressed to "all employees in the railroad service of the United States."

The benches were jammed with people on Sunday.

(By Associated Press)  
Paris, Aug. 19.—Between the Oise and the Aisne French troops attacked at six o'clock last night over a front of fifteen kilometers between Carignout and Fontenoy, approximately six miles west of Frisson. They advanced an average distance of two kilometers over the whole front, according to the official statement issued by the War Office today. The French have captured the village west of Nampceael, advanced seven miles northwest of Fontenoy south of Angignicourt, two miles southeast of Nampceael. Nampceael was captured. Seventeen hundred prisoners, including two battalion commanders, were taken.

London, Aug. 19.—The French 10th Army which attacked the German position between the Oise and the

Aisne last night has penetrated their position a distance of nearly two miles. The enemy machine gunners are resisting desperately and the German Air service is also active. Marcel Tricot, a little town over a mile southwest of Roy was taken by the French yesterday, according to reports from the battle front. The French also captured the town of Deauvignes two and three-fourths miles south of St. Mard, according to dispatches.

London, Aug. 19.—Near Mirville at the apex of the Lys Salient the British made fresh progress, says the official statement from Field Marshal Haig today. 550 prisoners and a few machine guns were captured. A German counter attack between Cuttinsteen and Meleux was broken up by the British artillery, the statement says.

## BRITISH BEAT OFF SAVAGE COUNTER

Capture Five Hundred Germans Near  
Meeris

(By Associated Press)  
With the British Army in France, captured by the British yesterday. Aug. 19.—British troops advancing on the Germans counter attacked and have beaten off a vicious counter night and this morning. The position the Cuttinsteen Ridge in front of Meeris which overlooks considerable ground attack and inflicted heavy losses on the held by the enemy in the direction of Meeris. More than five hundred German soldiers were captured. The Ridge was captured by the British yesterday.

## SPECIAL SERVICE DRAFT OF 5709 CALLED

(By Associated Press)  
Washington, Aug. 19.—Eighteen states were called on by Provost Marshal General Crowder today to furnish 5,709 white draft registrants of grammar school education for general military service. The men will enter military service on Sept. 6. Voluntary enlistments will be accepted until Aug. 26. All of these men will be sent to schools or training centers for instruction in special line of service for which they are wanted. Two hundred and twenty-five Massachusetts men will be sent to the Wendell Institute at Boston; 103 Massachusetts men to the Franklin Union at Boston, and 206 New York men to New Hampshire College.

## GERMAN SUB SINKS BARK OFF VIRGINIA

(By Associated Press)  
Washington, Aug. 19.—The Norwegian bark Nordhav was sunk by a German submarine 125 miles off the Virginia cape Saturday. Her crew escaped in small boats and have been brought to an Atlantic port by an American warship.

The Nordhav was sent down at noon Saturday about 120 miles southeast of Cape Henry. There were twenty-six in her crew all of whom escaped in two boats which were picked up by a naval vessel.

## TAKES UP THE MAN POWER BILL

Washington, Aug. 19.—Consideration of the new man power bill extending the draft ages, to begin in the senate next Thursday, was taken up with a quorum present today. The Senate set aside the agreement for a vacation recess until August 24th and cleared the way for taking up the draft measure without further delay.

## JUST DAVID

By ELEANOR H. PORTER  
Author of "Pollyanna"

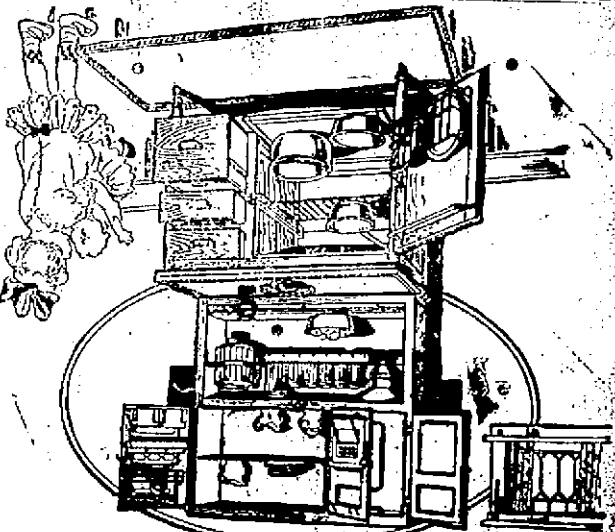

Ten year old David and his father (a famous violinist) lived on a mountain, with the woods, the wild things, and their two violins. Then a change came and David was left to the care of gruff farmer folk in whom the warmth of kindness was buried deep. But "Just David" brought music and sunshine into many lives and played a part in a very pretty romance.

## KITTERY

Kittery, Aug. 19.—The home of Mrs. Harriet Moore of Oak Bank was the scene of a very pleasant neighborhood gathering on Friday evening last, the occasion being in honor of Mrs. Moore's 80th birthday anniversary which occurs tomorrow. Owing to the fact that some of the friends could not be here on the day, the party was given on Friday evening, about 23 being present. The little gathering was a surprise to Mrs. Moore, who cordially welcomed her friends as they came in by twos and threes until all had gathered when a most social evening was passed, culminated with music by Mrs. William Cox and Miss Tazewell, Wausett. Refreshments of ice cream and cake were served, the latter including a handsome birthday cake lighted with 81 candles, the handiwork of Mrs. Cox. Congratulations

The annual concert of the Congregational church will be held at the church on Wednesday evening.

Miss Alice Dodd will be a guest at Rest Haven until the first of September.

Two aeroplanes were seen passing over the lower harbor early Sunday morning by a number of spectators.

Exeter, Aug. 19.—The U. S. S. Palmer, another in the big flotilla of torpedo boat destroyers which are being turned out at the Fore River plant of the Bethlehem Shipbuilding Company at Quincy, slid down the ways to a successful launching there as the tide rose to its height early Saturday morning.

The sponsor, the wife of Naval Constructor Willard, grasping in her arm a magnificent bouquet of roses that had been presented to her by General Munger S. W. Wakeman, made an inspiring picture as she christened the new fighting machine with a bottle of American champagne. The ceremony was witnessed by a great throng of people and their cheers and the shrill of whistles greeted the destroyer as she made initial plunge into the blue.

The U. S. Palmer was named after James Shelden Palmer, a naval officer who was born in New Jersey in 1810. He entered the navy as a midshipman in 1825, and was commander on the Columbus during the trouble with Sumatra, and during the Mexican war, commanded the steamer Silt. He became a commander in September, 1855, and at the opening of the Civil war held command of the frigate USS Palmetto.

## MORE MONEY IS OUT THAN EVER

Washington, Aug. 19.—More actual money—gold, silver and paper currency—is in circulation at present than at any time in the nation's history, and there is a bigger share for every man, woman and child. A treasury report today showed \$4,559,000,000 in circulation—\$700,000,000 more than a year ago and \$175,000,000 more than a month ago—making an average of \$82.44 for each person. These figures on the stock of money bear little relation to the nation's actual wealth, or to its credit resources, since these, pyramided on each other, amount to many times the actual money available.

## CONGRESS TO START AGAIN

Washington, Aug. 19.—Summer vacations ended, many members of Congress returned to Washington Sunday in preparation for important legislation which is expected to keep Congress engrossed until the November elections or even later.

Two aeroplanes were seen passing over the lower harbor early Sunday morning by a number of spectators.

## EXETER

Exeter, Aug. 19.—Old Home week which commences today, will not be observed generally in this section of Hockingham county. At only one place in this locality will an observance be held, that being at Hedding, five miles from here, where the seventh annual celebration will be held with appropriate exercises.

The town of Newfields had funds for an Old Home celebration, which was left over from the celebration of 1906. It was voted, however, to give the money to the Red Cross fund early in the year so the occasion will be passed up there. The war has dampened the spirits of the citizens in the near-by towns, none feeling like making any observance this year.

Mrs. Ellen Noonan, widow of Edward Noonan of High street, died Saturday morning at the Cottage hospital at the age of 62 years. She had lived here for many years and was well known.

Survivors are four sons and two daughters, one of the sons, Edward, being in the service in France, going from here with the Coast artillery company last July. The others are William of San Francisco, Cal., James and John of Exeter, the latter formerly being in the service, doing duty with the First New Hampshire Field Hospital corps, and Misses Nora and Emma, both of Exeter.

During the absence of the pastor of the Methodist church, Rev. John D. Leach, who leaves this week for Camp Taylor at Louisville, Ky., the New Hampshire Methodist conference will have the pulpit supplied. Next Sunday, Aug. 25, Rev. Niles Anderson of

## CANADIAN RECRUITING IN BOSTON

Until September 23th, the headquarters for all British and Canadian recruiting in New England will be at 44 Bromfield St., Boston, and will be under the direction of Major Kenneth D. Marriott, who has been head of the Mission in Massachusetts. The depot at Portland, Manchester, N. H., Hanover, Pittsfield, Springfield, Worcester, Lowell, Lynn, and Salem have been closed, and most of the officers returned to Canada. Arrangements have been made with the various American recruiting offices by which all applicants for enlistment in the British and Canadian forces will be sent to the Boston Depot. Men who desire to enlist in the British and Canadian Forces, and who journey from any point in New England to Boston, will have their fares refunded by the Mission after they have offered themselves for enlistment. If they are rejected, their fares will be paid back to their homes. The cut-down in the Mission staffs throughout the country is largely a result of Canada's decision to send a large expeditionary force to Russia. Major Guy S. Dwyer, who has been in charge of the Mission headquarters at Portland, Me., and whose territory extended through the states of Maine, New Hampshire, and Vermont, left Portland today for Canada to join the contingent that is going to Russia. Major Dwyer will serve under Lieut.-Colonel E. C. Jamieson, who has been in command of the East Division of the Mission with headquarters in New York, and will be associated with Major M. H. Hart, M. C., and Captain C. L. O'Brien, of the 14th Canadian Battalion, both of whom have been attached to the Mission in Boston. Before Major Dwyer's departure from Portland, he wrote to the Adjutant-Generals of Maine, New Hampshire, and Vermont, and to various other officials of these states, thanking them for the splendid cooperation they have given him in his recruiting work.

Four non-commissioned officers, Sergeants A. H. Warwick, J. T. Ridgell, Harry Auger, and Alex. Blimmen, who have been attached to the Mission in Massachusetts, started from Boston on Saturday, on their way to Canada. As they are all suffering from severe wounds received in the fighting in France, they will be assigned to some sort of home duty in Canada. It is expected that the expeditionary force to Siberia will leave Canada very soon as the officers who are going with it and who are now in the United States have been ordered to report to Ottawa immediately.

All recruiting for the British and Canadian armies will cease in New England on September 23th, after which all British subjects between the ages of 20 and 41, inclusive who are physically fit, will be drafted into the American army.

The Mission officials hope to secure several thousand recruits in New England between now and September 23th. Major Marriott, in a statement sent out today, said:

"I sincerely hope that all British subjects who are fit to fight, will enlist for service in the British and Canadian armies between now and September 23th. Of course they will have to do military service anyway, but we need them more than they are needed by the American army. Our manpower has been badly depleted by four years of fighting, whereas Americans have many millions whom they can call into service when they say fit. The British subject who is in earnest and really wants to help his country, should get into our armies immediately."

Throughout New England there are many colored British subjects, who have not yet responded to our call. It seems to me that they should all come in under the British flag, as in our armies we do not segregate men because of their color. In Boston, during the past few weeks, several hundred West Indians have enlisted, and are now in the training camps in Canada, being drilled with the white troops.

# AMERICAN TROOPS ARE LANDED IN VLADIVOSTOK

## First Transport Arrives With Troops From Manila--Others on the Way

(By Associated Press)  
Vladivostok, Thursday, (By Associated Press).—Transport carrying the first contingent of the American troops arrived here this afternoon, seven and a half days from Manila. The men were in excellent spirit and crowded the rails of the ship cheering and being cheered by the other allied troops now here. They will be kept on board until the arrival of other transports which are expected tomorrow.

## GOV. KEYES NON-COMMITAL ON SENATORSHIP

Concord, N. H., Aug. 18.—Gov. Keyes, who is empowered by law to name a successor to Jacob H. Gallinger, said to a reporter Saturday afternoon that he would take no steps to fill the vacancy caused by the death of the senator until after the funeral.

Whether he will name one of the men opposing him in the senatorial primary contest, which is to be settled Sept. 3, thus hangs in oblique until after Wednesday next.

Plenty of Rumors  
Rumors flow about the Capitol Saturday that the Governor would name either his predecessor in the gubernatorial chair, Holland H. Spaulding of Rochester or George H. Moses of Concord, ex-ambassador to Greece, both of whom are contesting with him in the Republican primary for the nomination to succeed Senator Henry F. Hollis. Seekers for verification of these rumors received no satisfaction from the Governor, who even intimated he might decide to make no appointment.

The fourth Republican senatorial aspirant for the Hollis seat, Roscerus W. Pillsbury of Londonderry, was advertised to make a campaign speech yesterday to make a campaign speech engagement upon hearing of Senator Gallinger's death. The death of Senator Gallinger leaves New Hampshire without a senator in the country, as Senator Hollis called for Europe July 4 on a mysterious diplomatic mission which some say has to do with the affairs of Holland.

While Gov. Keyes may appoint a successor to Senator Gallinger immediately under the statute, the tenure would not be for the senator's un-

## I. W. W. LEADERS ARE GUILTY

Chicago, Aug. 18.—One hundred leaders of the Industrial Workers of the World were found guilty as charged in the indictment by the jury after one hour's deliberation at their trial for conspiracy to disrupt the nation's war program late Saturday. Arguments for a new trial will be heard next week.

The defendants, including William D. (Big Bill) Haywood, general secretary-treasurer of the I. W. W., the highest position in the organization, face a maximum penalty of 27 years in prison and a \$10,000 fine each.

One Count Withdrawn  
Federal Judge K. M. Landis, in his charge to the jury, withdrew the fifth and last count of the indictment,

which charged conspiracy to violate the postal laws, and particularly that section excluding from the mails enterprises in the nature of schemes to defraud.

The remaining four counts of the indictment specifically charge violation of the espionage act, the section of the criminal code prohibiting interference with the civil rights of citizens, the selective service act, and the conspiracy statute.

The close of the case, which has been before the court for 128 days, was sudden. Two minor witnesses testified at the morning session, and following them Frank K. Nebecker, chief counsel for the government, began his closing argument, for which he was allowed two hours, but consumed scarcely half that time. George F. Vanderveer, head of the defense legal staff, to the surprise of all in the court room, declared that he would submit the case to the jury without making a closing statement.

After the instructions of Judge Landis the jury retired at 4.10 and just one hour later announced that its verdict was ready. The court hastily assembled and the verdict was read at 5.25.

There was no demonstration and the defendants were returned to their cells after Judge Landis had announced that he would hear arguments for a new trial next week, the exact date to be set later.

## NEGRO AND WHITE SOLDIERS IN FIGHT

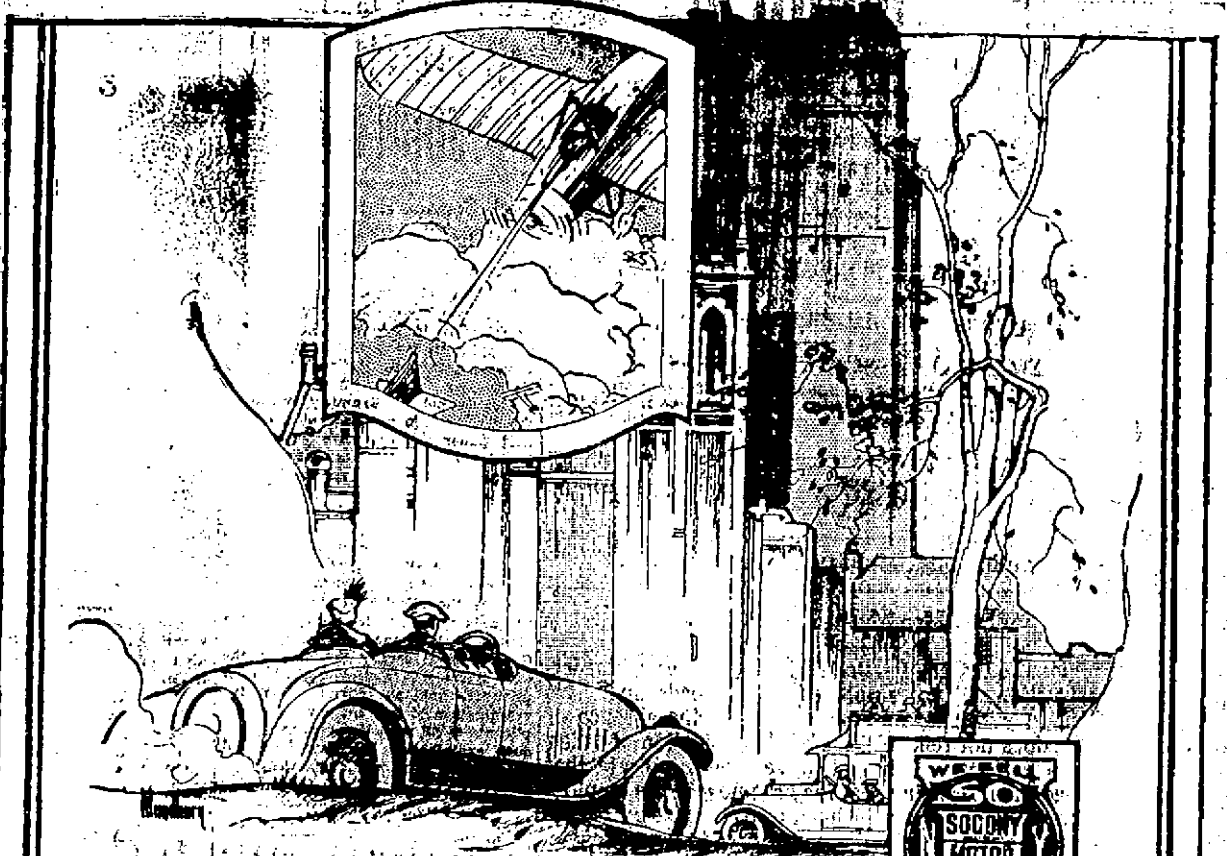

Camp Merritt, Aug. 18.—Camp authorities are investigating a riot here late last night, where it was reported that two negro soldiers were killed and several injured. The authorities while admitting that there had been a fight said that a statement would be issued later. From soldiers who claimed to have seen the trouble, and started between a white sergeant and a negro soldier, having a fight. The military police were called and when they arrived negro soldiers began taking a hand and shots were fired and many injured.

## WAR CASUALTIES NOW 21,467

Washington, Aug. 18.—The casualty list in the United States over sea were 1,355 compared with 4,916 of last forces for the week ending Saturday week. The total casualties up to date are 21,467, the total killed 8,133 and wounded 11,615, missing in action 1,719.

## POLICE NEWS

Sunday was quite with only a few complaints of a minor character. Saturday there were but two arrests, a young man named William Turner was held on the complaint of the Shattuck Ship Yard people that he had taken an auto without permission and Walter Vicker was arrested for riding a bicycle on the sidewalk at Maplewood avenue.

## MISSING FROM EXETER HOME

Exeter, Aug. 18.—Frank Davis is mysteriously missing from his home on Upper Front street. He wandered away last Thursday afternoon and all night the police force and firemen were hunting for him without success. Davis is thought to be wandering about in the woods in the vicinity of Kensington, as he was last seen in the evening on High street.

Thursday afternoon about 3.30 he went into the postoffice and had a money order cashed. From there he came home and locked the door in his stable, leaving soon after. His long absence caused his wife to worry and she notified the police early in the evening. He had been working in the shipyard at Portsmouth, but came back from there after remaining but three days. He had been ill and it is thought that illness has caused some mental disorder. Nothing has been heard from him since today.

While Helena Kardo, aged 13, of Manchester, N. H., slept, lightning entered the room and cut off a brand of her hair about two inches from her head. She had slept soundly throughout the storm and did not discover her loss until the next morning.

## LONDON BUS AND TRAM CARS TIED UP

London, Aug. 18.—Following the walk-out of the bus and tram drivers and conductors, the entire bus and tram lines were tied up today in a strike in which the women ask for the same wages as the men. It has tied up the entire system, other than one street bus line and the tubes.

## THOUGHT HE HAD THE BURGLAR

A Richards avenue resident thought he had the local burglar early Sunday morning. He was awakened by the crash of breaking glass and thinking it was a burglar he hustled down the front stairs while his wife with equal courage went down the rear stairs and they hunted the entire lower part of the house. They failed to find any signs of the burglar but on looking out on to Richards avenue discovered the cause of the shattered glass. The glass from the windshield of an automobile was scattered along the avenue. What caused it to break or who's auto it came from they were unable to find out. Somewhat disappointed they went back to bed.

## Railroad Men Must Be Courteous.

One regional director of railroads has issued a circular letter of instructions to the employees of the roads under his jurisdiction, in which he reminds them that the absence of competition does not relieve them of the obligation of being courteous to patrons. This fact alone would indicate that some railroad men, realizing that they are now in the employment of the government, are inclined to feel that they are beyond the reach of travelers and are at liberty to treat them as they please. It is to be believed that the men taking this position are in the great minority, but that there are some who are getting above their business is made plain by the fact that it has been found necessary to call their attention to what is expected of them, and what will be demanded of them.

It is well that it should be made clear right at the start that discourtesy on the part of the railroad employees will not be tolerated by the government. People old enough to remember the earlier days of railroading can easily recall the time when many railroad employees, conductors in particular, felt themselves to be the lords of creation and at liberty to treat passengers as disdainfully as they pleased. Not so were all conductors, but there were those who felt that a uniform and a ticket punch placed them in a class by themselves and absolved them from the obligation to treat people decently.

But in time the abuse worked its own reform. There was competition in those days and railroad companies came to understand that a reputation for discourtesy militated against their interests, and so, as a matter of business policy if for no other reason, they began to educate their employees to have due regard for the rights and privileges of their patrons. From that day there has been a steady improvement and of late years rudeness on the part of railroad employees has been the exception rather than the rule.

But now the roads are in the hands of the government and it is possible that some of the men are foolish enough to imagine that they have a stronger backing than the old companies could give them, and that they are in a position to play "high and mighty" if they see fit. The circular referred to shows that those who have taken this position are already in line for a correction of their mistake.

It is probable that the removal of trains and other steps that have been taken to bring the service of the roads to the highest efficiency have placed some extra burdens on railroad men, and that their patience may be strained at times almost to the breaking point. But they are well paid for their services and are bound by the laws of common decency to treat travelers courteously and to lend them every assistance by cheerfully giving any information requested.

Happily, most railroad men will do this without compulsion, but it is well to have it understood that compulsion will be brought to bear when needed, and that the railroads of the country are not to be Russianized or Germanized because they happen to be for the time being in the hands of the government.

In some places farmers and gardeners who take their produce to the public markets are being asked to give what they fail to sell for the relief of the families of men in the service. But why should not such giving, if it is to be done, be made a community matter instead of being loaded upon a class who work as hard for every dollar they get as any class of workers in this country?

The Postoffice department has taken control of the airplane mail service between New York, Philadelphia and Washington, which heretofore has been in charge of the War Department. This is said to be the first step toward the establishment of a nationwide airplane mail service. It is sincerely to be hoped that it will not be any worse than the service the country is now receiving.

It is reported that Lenin and Trotsky have fled to Kronstadt, a naval base near Petrograd, and that the Germans are preparing to take possession of the latter city. It appears to be a case of common interests gravitating to a common center.

There is now a large American army in the field in command of an American officer, "And still there's more to follow," as a familiar hymn has it. Prussian autocracy has indeed fallen upon troublous times.

Fishing along the Atlantic coast has become a ticklish business. If the submarines keep on with their accursed work there will be no ground for complaint if the price of fish goes up.

Hand knitting for the soldiers is temporarily held up by shortage of material. But there will be fresh supplies in due season and it will be well to keep the needles in readiness.

## TO FILL PLACE OF POSTMASTER JOHN H. DOWD

Civil Service Examination for Applicants to Be Held in This City Sept. 17.

The United States Civil Service Commission has ordered a competitive examination in this city on Sept. 17 for applicants for postmaster to fill the vacancy caused by the resignation of Postmaster John H. Dowd.

This is not an examination under the civil service act and rules, but is held under the executive order of March 13, 1917, which is as follows:

"Hereafter when a vacancy occurs in the position of postmaster of any office of the first, second or third class as a result of death, resignation, removal, or on the recommendation of the First Assistant Postmaster General, approved by the Postmaster General, to the effect that the efficiency or needs of the service requires that a change shall be made, the Postmaster General shall certify the fact to the Civil Service Commission which shall forthwith hold an open competitive examination to test the fitness of applicants to fill such vacancy, and when such examination has been held and the papers in connection therewith have been rated the said Commission shall certify the result thereof to the Postmaster General who shall submit to the President the name of the highest qualified eligible for appointment to fill such vacancy unless it is established that the character or residence of such applicant disqualifies him for appointment. No person who has passed his sixty-fifth birthday shall be given the examination herein provided for."

## FORMER GOVERNOR OF VT. KILLED

(By Associated Press)

Sherbrooke, Quebec, Aug. 18.—Former Governor Prouty of Vermont, was killed when an automobile was struck by a Grand Trunk train near Waterbury today. The chauffeur was rendered unconscious. Mr. Prouty was on his way from Newport, Vermont, to take a train at Lenoxville for Jacksonville, Maine, when the chauffeur failed to observe the approaching engine owing to a dense fog. Mr. Prouty was instantly killed. The chauffeur, J. W. May was taken to the Sherbrooke hospital suffering from concussion of the brain.

Former Governor Prouty was manager of a large lumber concern, who has served in both branches of the Vermont legislature and as Lieut. Gov. He was governor from 1903 to 1910. His brother, Charles A. Prouty, is director of the Division of Public Service and Accountant of the staff of the Federal Railroad Administration.

## 500 SHOE CUTTERS ARE REFUSED WORK

(By Associated Press)

Brockton, Mass., Aug. 18.—500 cutters, vampers, stitchers and lasters who have been on strike for several weeks were refused admission to factories today where they attempted to work. Manufacturers stated that they could not take them back into their employ because they were not in good standing with the Boot and Shoe Workers Union with which the manufacturers had a contract. The strikers who seceded from the union are now members of an independent organization.

## PEOPLE'S OPINIONS

Firemen Questioned.

Editor:—

These questions are often asked the members of the fire department:

When are you going to get the new fire station?

Who will have the honor of laying the corner stone? And when will that motorized hose wagon go into commission?

One acquainted with city and fire department affairs might answer by saying: "These questions are nothing new."

The school houses appear to beat out the fire department.

During Mayor Yeaton's administration the question of a school house and a fire station was brought up and was said "we will build the school house this year and next year the fire station." The new Lafayette school has been built but the fire station not yet.

Now another school house has got to be built and probably a fire station at Freeman's Point.

The chassis for the hose wagon has reached the third stage on its journey and is now in storage beneath the old court house for how long we do not know.

It doesn't look very promising for a central fire station at present, but it may come in the sweet by and by. The only thing that speeds up the fire department is the fire alarm and that's not very often.

Probably just as well as the automobiles still block the hydrants.

## CHAUTAUQUA AT HEDDING

Hedding, Aug. 19.—The annual Hedding Chautauqua commenced Friday, and will continue till Aug. 25, when the 55th annual camp meeting will open. Saturday the program consisted of the "Morning Watch" in the morning, and a baseball game in the afternoon. In the evening the drama "Breezy Point" under the auspices of the Ladies' Auxiliary, in charge of Mrs. S. F. Dawson, will be presented.

Sunday the Academic sermon will be preached at 2 o'clock by Rev. Willis P. Odell. The subject of the morning watch was "England and America," with E. S. Riley of Lawrence, Mass., leader.

The seventh annual Old Home Day will be on Thursday of this week when the address will be given in Chautauqua hall in the afternoon, followed by a baseball game. The annual track meet will be held on the campus in the morning. In the evening there will be a band concert by Mason's band of Manchester.

A careful reckoning of the rings of the first big pine tree on the entrance to the ground shows that it was 150 years old, with an average diameter of 4 1/2 feet. The year of greatest growth was at 50 years, when the increase was half an inch in radius, the diameter then being 20 inches. This was approximately in the year 1828. It was one of the largest pines in this section.

An owl which has been heard for the past 25 years in the vicinity of the grounds has recently been shot, and in its stomach was found nine newly hatched birds. The killing of this owl is thought to account for the increase in bird life at Hedding, there being many this season. The owl has been mounted.

## NAVY YARD NOTES

Ryden Coming Here.

Naval Constructor R. W. Ryden will likely succeed Constructor R. P. Schuchbach in the Industrial Department on Sept. 10. Mr. Ryden ranks as a Lieut. Commander and is now doing duty in the Bureau of Construction and Repairs at Washington. His last foreign duty was in the Philippines. He served at the local yard 15 years ago as an assistant under Constructor John G. Tawressey.

Band Doing Well.

The Industrial Department Band, recently organized among the men of the various trades, will make its first appearance on Labor Day in this city. The membership so far is about 20 men, but more will be added each day. This company of musicians is working under the direction of A. J. Swaney of Berwick.

Exam. for Messengers.

A civil service examination for yard messenger boy will be held on Aug. 21 and Oct. 12. The position pays \$1.52 per diem. The examination will also be to secure eligibles for future vacancies.

Seventy-Nine Called.

The Industrial Department sent a call for 79 workmen to the labor board today to include the following: 33 general helpers, 12 machinists, 12 carpenters, 3 joiners, 1 woodworker's helper, 2 drillers, 1 ship plumber, 1 house plumber, 1 sheet metal worker, 1 ship-smith, 1 polisher and buffer, 2 caulkers and chippers, 1 shipsmith's helper, 2 engineers, 1 chauffeur.

While both testimony was partly correct, their act was a violation of the law and their arrest followed the several complaints of residents in that section. The court imposed a fine of \$10 and costs of \$6.74 in each case, which the defendants paid.

William A. R. Turner, charged with taking an auto without permission from a garage near the Newington shipyard, pleaded not guilty. The machine is owned by an employee of the yard from Barnstead, N. H., and while there were others who were in the machine, the officers at the shipyard could only identify Turner.

The machine was gone only an hour and Turner denies all knowledge of the charge made against him. The case was continued for one week and bail placed at \$400.

Charles Avery was found guilty of running an automobile at night without lights. He was fined \$25 and costs of \$11.72. The fine was suspended, he paying the costs in the case.

## PORTSMOUTH HOSPITAL DAY

Total Receipts Amount to  
**\$2,609.12.**

One of the most comfortable days in a hot and showery week was August 19, 1918 our 10th annual hospital day. Not only the weather but the people were in a happy mood and the result was most gratifying. The total receipts-to-date being \$2,609.12. The expenses were \$55.14 leaving a net balance of \$2,553.98 and had not the little tri-colored tags given out, more might have been collected in some facilities. There were some \$500, or \$600 in checks and bank bills, (the largest single gift of \$100, being from a former resident of our city, Mrs. Susie Walker Trask, now of Erie, Pa.) But as usual the greater part was in coin which represented thousands of small donations, this included 400 half dollars, 2800 quarters, 7000 dimes, 4,000 nickels and 5000 cents which made a large show on the counting table and for every penny of which we extend our hearty thanks, as also to the faithful workers on the street and the band of diligent young collectors.

Much of this will have to be used for the fuel during the coming winter, and we are glad to feel that if coal can be obtained, we can pay for it. The expenses for fuel, lights, food, service, medical supplies and even in a small institution are tremendous and constantly increasing in these days as every one knows, (the more items of milk and eggs used would secure an ordinary housekeeper) and these bills must be paid first, though our needs are many in other ways, some of which I will mention: First, we need more room for patients—the hospital was built to accommodate about 30, we have had an average of 38 for the past three months and at times 45 and 50; the reception room has been in constant use with one or two beds and often the corridors. We especially need a new maternity ward, with 30 babies born in the past three months the accommodations on third floor for such cases are neither comfortable nor comfortable in hot weather, nor are they convenient nor pleasant nor at all modern. We need exceedingly a separate steam plant outside where heat can be supplied to both buildings, sufficient coal stored for several months, and all the dust and noise of it kept away from the main building; any one who was ever sick must realize the annoyance to any patient especially a nervous one of the almost daily shovelling of coal. We need—oh yes, we would like a new hospital with all the most modern conveniences and equipments—and plenty of money all the time, but we are doing and will continue to do our best to serve the wants of the community in the present building, so if anyone has a complaint or criticism, will you please come straight to some one in authority and report it and not circulate stories which usually have no foundation or at least have another side; and friends, please don't tell us through papers that we need "a new elevator" or new roadways or this, that and the other—we realize all our needs as badly as you do—and expect to have them all supplied—some glad day—after the war on that Millennium to which we all look forward—but what should we do without our hospital?

Again we thank the people for their grand donation, the largest ever in the ten years since we had our first ten years since we had our first Tag Day in 1909 when it was \$2123. Looking hopefully forward to another in 1919.

For the Directors,  
Mary E. Myers, Treas.

## THE HERALD HEARS

That between 80 and 100 women from Dover are now employed on the navy yard.  
That auto traffic in this city reached record figures on Sunday.  
That the police commission meet tonight.  
That passengers on the noon train from Portsmouth to Dover did lots of complaining on Saturday.  
That they say that seven cartons of passengers were crowded into five cars.  
That such a condition makes it hard for everybody, the train crew as well.  
That the bath house at the play ground is not large enough for some of the boys and they do their swimming in the pond.  
That one of the war secretaries of the Y. M. C. A. just back from France tells of an amusing incident.  
That one of his duties was to teach the French soldiers how to play basketball.  
That the secretary was coaching two teams in a game as well as acting as umpire.  
That one of the police hit a ball sending it hot to the pitcher.  
That the pitcher covered his face with his hands and standing still let the ball come heavily against his chest.  
That the batter, instead of running to first base, ran straight for the pitcher.  
That he kissed the pitcher and made a great apology for what he had done.

That the pitcher had an idea that he had been assaulted.  
That Edward C. Ruberstein of Gettysburg caused a big surprise when he appeared for a marriage license.  
That he told the clerk at Hagers-town, Md., he did not know the residence of the bride-to-be.  
That he answered all questions fired at him by the clerk but on this one he was stuck.  
That he thought she lived 12 miles from somewhere but never had written her a letter and never asked her where she was domiciled.  
That the painters union will all appear in white on Lab or Day headed by the Lynn Band.  
That the primary election occurs on Tuesday, Sept. 3, and follows Labor day.  
That the Dover police are out for a raise in pay amounting to \$1 per day.  
That several cars of Walter L. Main's circus which exhibited in Concord last week, needed minor repairs and were sent to the B. & M. R. R. shop there.  
That it cost the circus manager nearly \$1,000 for the day's work.

## NO CHANGE IN FARE LIMITS

The item regarding six cent fares in the local electric road stated that now limits had been made, which was in error. The fare to Lang's corner is 6 cents instead of 5.

## BURGLARS VISIT GOODRICH HOUSE AT YORK CORNER

Make Break Saturday Night;  
House Unoccupied, Owner  
in France.

The summer home of Charles Goodrich at York Corner, Me., was entered by burglars sometime Saturday night. The break, which was discovered by the caretaker on Sunday morning, was reported to the Portsmouth police and officers of other surrounding towns shortly after.  
Some silver and carpenter's tools are the only things the caretaker could say were missing on the first and hurried investigation.  
Mr. Goodrich's home is located on the banks of the York River and one of the most costly estates in that section. It has not been opened this summer as Mr. Goodrich, who for years controlled the Goodrich Rubber Tire business, is connected with government work in France. The family hall from New York.

## SHATTUCK NINE CHALLENGES MANCHESTER

Manager Mahoney of the L. H. Shattuck Inc., who has issued another challenge to any team in Manchester. The Union makes the following reference:  
This latest challenge is issued by Manager Frank Mahoney of the shipbuilders nine and he would bring his team here for expenses and permit the profits to go to any worthy fund that may be suggested.

Mahoney was two years manager of the St. Anselm's college baseball teams in the seasons of 1917 and 1918. He is at the helm of a strong diamond club. As many of his players are well known to Manchester fans he is anxious to bring his team here. His players have already made good against some of the strongest service teams in New England.

Manager Mahoney has two St. Anselm's college players with him, Joe Dugan, the crack left fielder and star hitter of the blue and white, and Bill Shattuck. The latter is known as the star athlete for three years at Concord high school. At St. Anselm's last season he showed great form at short. Mahoney has shifted him to second and has Conlon of Exeter playing short.

For pitchers Mahoney has Tyler of New Haven, Eastern League club; Johnson of Everett High and Belger of Colby, Mehan, of the Portland-New England league team, and Beaudoin of Rochester High and St. Anselm's, are the catchers; McKean of Springfield, Eastern League club, is covering first, and John Mitchell, former Boston college and Queen Quality player, covers the third corner. Kirshstein of Tufts is looking after left field, while Beaudoin plays in the right garden when not working behind the bat.

## SOLDIERS GET WHITE BREAD

(By Associated Press)  
Washington, Aug. 18.—The American army in France is amply supplied with bread made of all wheat flour, the War Department announces. Soldiers while in the United States consume victory bread with the prescribed amount of substitutes for wheat flour until they get to France are allowed all wheat bread. Field bakers must work swiftly and cannot afford to experiment with new flour mixtures.

The Herald is the popular local paper because it is for Portsmouth first and all the time.

## HUN SOLDIERS KNOW THEY CAN NOT WIN

(By Associated Press)  
With the British Army in France, Aug. 18—The British patrols are in daily action which is advancing their lines slowly but steadily in the Somme salient.

German officers and men taken prisoner can not be gained on the battle-prisoners are of the opinion that a defeat and that peace should be arranged even if it is a make shift description. While they state that Germany can not win they are equally firm in their belief that she can not be beaten.

## U. S. SHARP SHOOTERS GET GERMANS

(By Associated Press)  
With the American Army in France, Aug. 18—A corporal in a front line who was promoted to the position of sniper, accounted for six Germans in three days. One German sniper who had been given the Americans considerable trouble, he secured after crawling to a tree where the German was hidden, and getting his man, three of them in trenches 600 yards away.

## SERIOUS FOOD RIOTS IN JAPAN

(By Associated Press)  
Tokyo, Thursday. (By the Associated Press)—There serious riots here last night, mobs getting beyond control of the police and wrecking the business and theatre district.  
The rioting started at Asakusa, the great recreation grounds of the middle and poorer classes and there were a number injured in the disturbance.  
The food disturbances have increased in volume all over the country. The seriousness of the situation has been recognized by the government and a special meeting of the Council was held and 5,000,000 yen was appropriated to purchase rice and sell it to the people at a moderate price. The Emperor contributed 3,000,000 yen himself to the fund.  
There is an abundance of rice, but it is being held in storage by the farmers and the brokers.  
The newspaper commenting on the food riots as an indication of the growing social unrest of the people. Riots are spreading like wild fire and the mobs have attacked the homes of the wealthy.  
The disorder broke out on Tuesday night when a crowd of 5,000 people

## ROCHESTER BOY LEADS A PARIS PARADE

Rochester, Aug. 17.—Lieut. Conrad Snow, son of Attorney Leslie P. Snow of this city, led the big Fourth of July parade in France last month. He was in command of a detachment from the fourth brigade of field artillery, including three brass bands, and for that reason headed the procession of American troops in the parade.

"Overhead," Lieut. Snow has written home, "as we marched down the Champs Elysees, a great aeroplane looped the loop, and came hurrying down the avenue at terrific speed. The people simply pelted us with all kinds of flowers and shouted themselves hoarse with Vive l'Armee, Vive les Etats Unis and all sorts of other cries."

"Paris was really gay, flung with the Stars and Stripes, and America owned the city."

Millions of worms passed through Wetzel County, Va. They were so thick they drove the farmers out of their fields. For three days the farmers had to shovel the worms away from their homes. The army of worms is traveling in a perfectly straight course, is about 100 yards in width and three miles long. When one farmer, Millard McDougal, got up to begin the day's tasks he found worms slicked several feet high against his back door. It took the worms more than three days to pass a given point.

Leaders of organized labor in the District of Columbia are planning to present to President Wilson and Congress a resolution calling for restoration of the sale of beer and light wines in Washington.

This action was decided upon at a meeting of the Central Labor Union in Typographical Temple. A committee was named to present the matter to President Wilson and Congress, and the resolution received the unanimous endorsement of delegates from practically every local union affiliated with the central organization.

The action of the Central Labor Union reflects the views of more than 75,000 workers in the District according to officials of the organization. There are ninety-two local unions affiliated with the central body, and the resolution adopted has the support of every workingman in Washington, union officials say.

The meeting was largely attended, and the matter of restoring beer and light wines to Washington workmen came in for a vigorous discussion. Laborers are deserting this city for places where they can secure beer, it was said, and the present prohibition law was scored as being a cause of the labor shortage.

A number of delegates declared themselves as being teetotalers, but desirous of seeing beer and wines restored as a corrective measure for many of the ills now affecting the labor situation. There was a large gathering of women in the audience, and several spoke in favor of the resolution. One delegate declared the present situation to be a "petty tyranny on a pattern people, and stated that a day Washington did not represent the choice of a majority of the laboring class.

Instances were cited where efficient men, who formerly drank beer and never missed a day from their work, now are going to Baltimore to get whiskey, with the result that they are becoming confirmed whiskey drinkers and unable to render a maximum of efficient labor.

Bootlegging is a constantly growing evil, the labor men declared, and shop efficiency is being impaired to a serious extent by the sales of vile whiskey.

The limited fare forced upon the men by the high cost of living makes beer a necessity to take out their minds, it was claimed. Workers are becoming dissatisfied with living conditions here, and word is being spread abroad throughout the country that Washington is a poor place for the laboring man to get along, the union members declared.

## DROWNED IN BRANCH OF LITTLE RIVER

Wester, Aug. 14.—Albert M. Lane, Jr., 11 years of age, son of Mr. and Mrs. Albert M. Lane of Upper Front street was drowned last Thursday while in swimming in one of the branches of Little River towards East Kingsdon. He was with a party of playmates, none of them being able to swim, and ventured out too deep. A pulmonary was applied but without result as the boy was dead before it arrived. The family had lived here but a short time.

## The Irresistible Appeal of Snowy White Porcelain

"I'll be frank with you," said a lady at Margeson Brothers the other day. "I looked at refrigerators up town, and as I was in a hurry to get home, I wouldn't have come down here at all except for two reasons. The first is, I have heard of the Bohn Syphon and the Sanitor refrigerators and that pure white, all-porcelain lining is the nicest thing I have ever seen. The second reason is that the price up town seemed high and yours is a whole lot less for a refrigerator that is much better looking."

With equal frankness we explained to this customer, as we took her order, that our price, while admittedly lower than she had been quoted elsewhere, carried for us perhaps an even better profit inasmuch as the few refrigerators we had in stock had been contracted for more than a year ago, since which time there had been a number of price advances, in all lines.

We also modestly admitted that there was an irresistible appeal to the pure white porcelain interior of these refrigerators, perfect air circulation and other desirable features, she could make no mistake in purchasing.

No, that wasn't good salesmanship; we merely agreed with the customer and how could we help it. The evidence was all there to show she was right.

# LIFE CRUSHED OUT AT SHIP YARD

## Geo. H. Kimball, Victim of a Sunday Accident at the Atlantic Ship Yard Plate Shop

George H. Kimball employed in the plate shop at the Atlantic Corporation was almost instantly killed on Sunday afternoon when he fell from a traveling crane and the heavy blocks came down on him.

He was working with the traveling crane and he had stepped onto the hook to be hoisted up to some of the work, which is the customary among workmen to stand on the hook holding on to the chain.

The crane man engaged in watching Kimball did not notice that the blocks were so near together and they came together with such force that the chain broke and Kimball fell a distance of 40 feet coming down astride of a steel girder, and on top of him the big steel block, which weighs possibly 300 pounds.

It struck him across the back, breaking and crushing him terribly. Dr. J. D. Carly was at the plant hospital and he arrived in the plate shop in a few minutes but Kimball was unconscious and he died shortly after.

Mr. Kimball was 30 years of age and married and he leaves a wife and aged parents in Wolfboro and three sisters.

He leaves a widow, mother, father, three sisters, Mrs. Howard Burroughs, Brookfield, Mrs. Benjamin Ashworth of Lowell, Mrs. Charles Johnson of this city; two brothers, Ira C. and Everett A. of New York.

## ABLE ADDRESS FOR THE ENLISTED MEN

Rev. Robert U. Patterson of Waltham, Mass., gave the address at the meeting for enlisted men at the Y. M. C. A. building on Sunday afternoon.

He talked on the ability of finding God in one's daily life and called attention to a Y. M. C. A. poster hung in the audience room representing a soldier going into the fight. He told of the need of the soldier to have nerve, but said the finest kind of nerve is God inside a man's heart and he can travel along a certain line of thought that will make God in his life. He referred to the type of persons of fine glorious natures in whose faces one sees fineness of character, showing they are living with God. He told of the splendid influence of such a person who brought one nearer to God and of the person of a mean, coarse nature who had the opposite influence.

The speaker referred to three ways by which one may be brought nearer to God, through faith, prayer and through service.

Following the service a fellowship lunch, of sandwiches, pies and coffee was served by the Woman's Auxiliary of the Y. M. C. A.

## SHATTUCKS DEFEAT DOVER

Manager Mahoney took his nine, the 11, Shattuck Inc. to Dover on Saturday to meet the strong team from that city and came out victorious. The feature of the game was the pitching of Johnson and the hitting of Husten. Scruton was hit freely while Johnson kept the hits well scattered. Cashman played a star game at third.

## BEES LEFT NEARLY 100 POUNDS OF HONEY

## Busy in His Home Many Days and He Didn't Know It.

Walter Colbath, a fire claim adjuster for the H. & M. who lives in Sanbornville, was in this city today and while talking to a Herald man, said he got some surprise one day last week which means a cut in the high price of living for him. He had called in a carpenter to repair his house and the mechanic did not dare to go to work until a swarm of bees could be removed from the attic which had got in under the shingles unknown to the occupants of the house. He next called in a bee man who had a hive constructed and put the bees into it. When the job was done Mr. Colbath discovered that the bees had been very busy and left him nearly 100 pounds of honey. From now on he will be in the honey business.
